Summary

I'm a Full Stack web developer ,

Recently I've been working on two projects that are linked in projects section.

With them I was able to apply and practice technologies like:

~ Express, Node.js, JavaScript...for the backend of my application.

~ React, Redux, CSS , HTML...for the frontend of it.

~ and I used Sequelize, PostgreSQL for my databases.

~ I also used Github, Trello to coordinate team effort in my group project.

I consider myself a responsible, applied, self-sacrificing person who also enjoys teamwork.
